

Do your SMC eLearning

How do I complete my eLearning in the SLSA Members Area?

1

Log in to the SLSA Members Area

SLSA Members Area

You will access the eLearning portal via the SLSA Members Area.

If you don't already have a Members Area account, create an account.

If you want IT support, go to help.sls.com.au.

Part of

Annual Skills Maintenance Check (SMC)

Book your SMC session

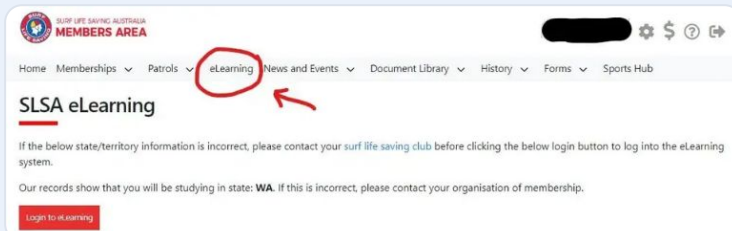

Trainer? Open in the Hub (sign-in needed).

2

Click on eLearning

Members Area › main menu

Click on "eLearning" in the main menu bar.

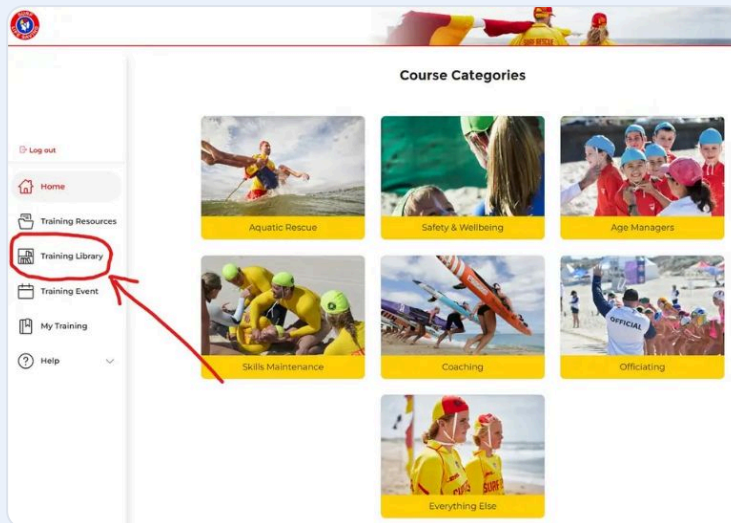

3

Open the Training Library tab

eLearning › Training Library

After the system logs you into eLearning, you will see the Welcome screen below. Click on "Training Library", where you can locate your course.

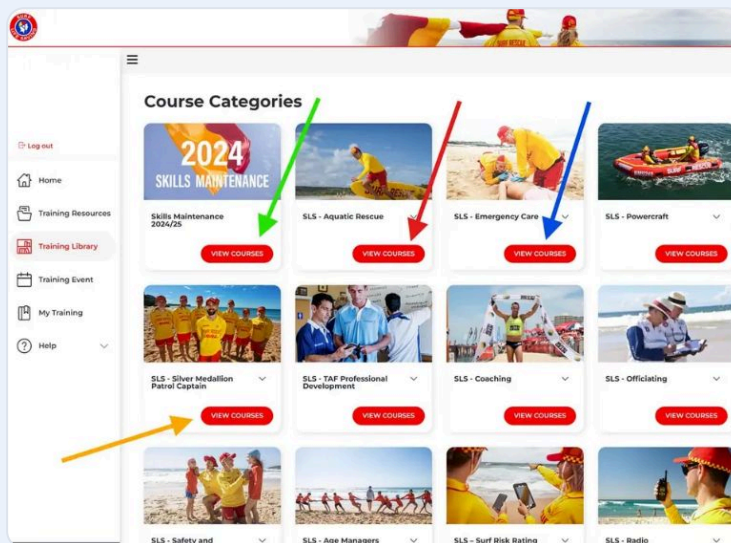

4

Find your course

Training Library › course categories

Click on the correct course category (note these categories change frequently: it'll be somewhere!):

- Green arrow: Skills Maintenance Checks
- Red arrow: Bronze, SRC, SMPC, SMAR
- Blue arrow: ART
- Yellow arrow: SMPC

5

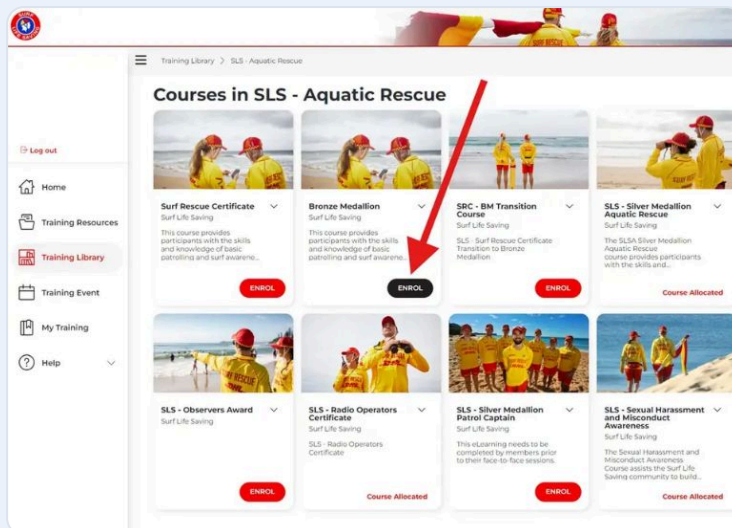

Enrol in your course

Your course

Click Enrol and complete all the modules to receive a completion certificate.

If you need to go back to your course, select 'My Training' from the side menu.

Not sure about the correct answer? Please review the related module again. You can also use the SLSA Training Resources tab for more detailed guides. If you're still not able to answer a quiz question, there's no need to despair: simply do as much of the other modules as you can and bring your questions to your trainer in person.

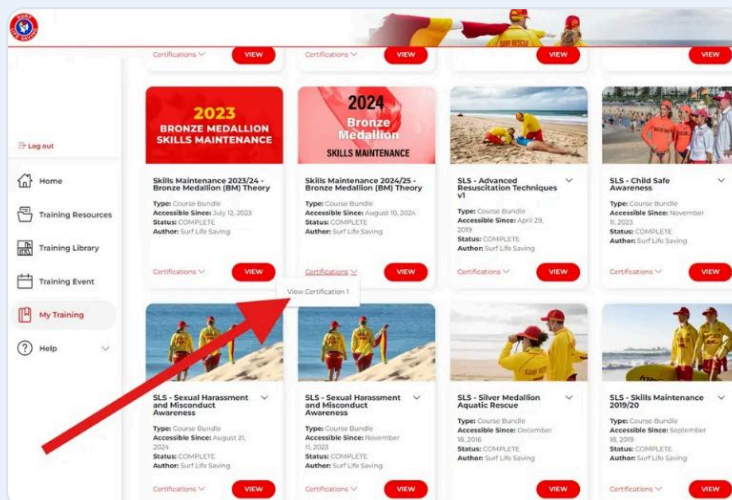

6

Complete the course and print or email your certificate

eLearning › My Training

Click on "My Training" and print or email your certificate prior to the course.
